

**Shaping Health and Care**  
**12 October 2016**

# Agenda

- Welcome and introductions
- A personal story
- East Sussex health and care: our latest thinking
- Break and marketplace
- Sharing decisions about our health care
- Using technology to support independence
- Next steps and staying involved.

# **Shaping Health and Care**

**Dr Martin Writer**

**Chair of Eastbourne, Hailsham and Seaford CCG  
and a local GP**

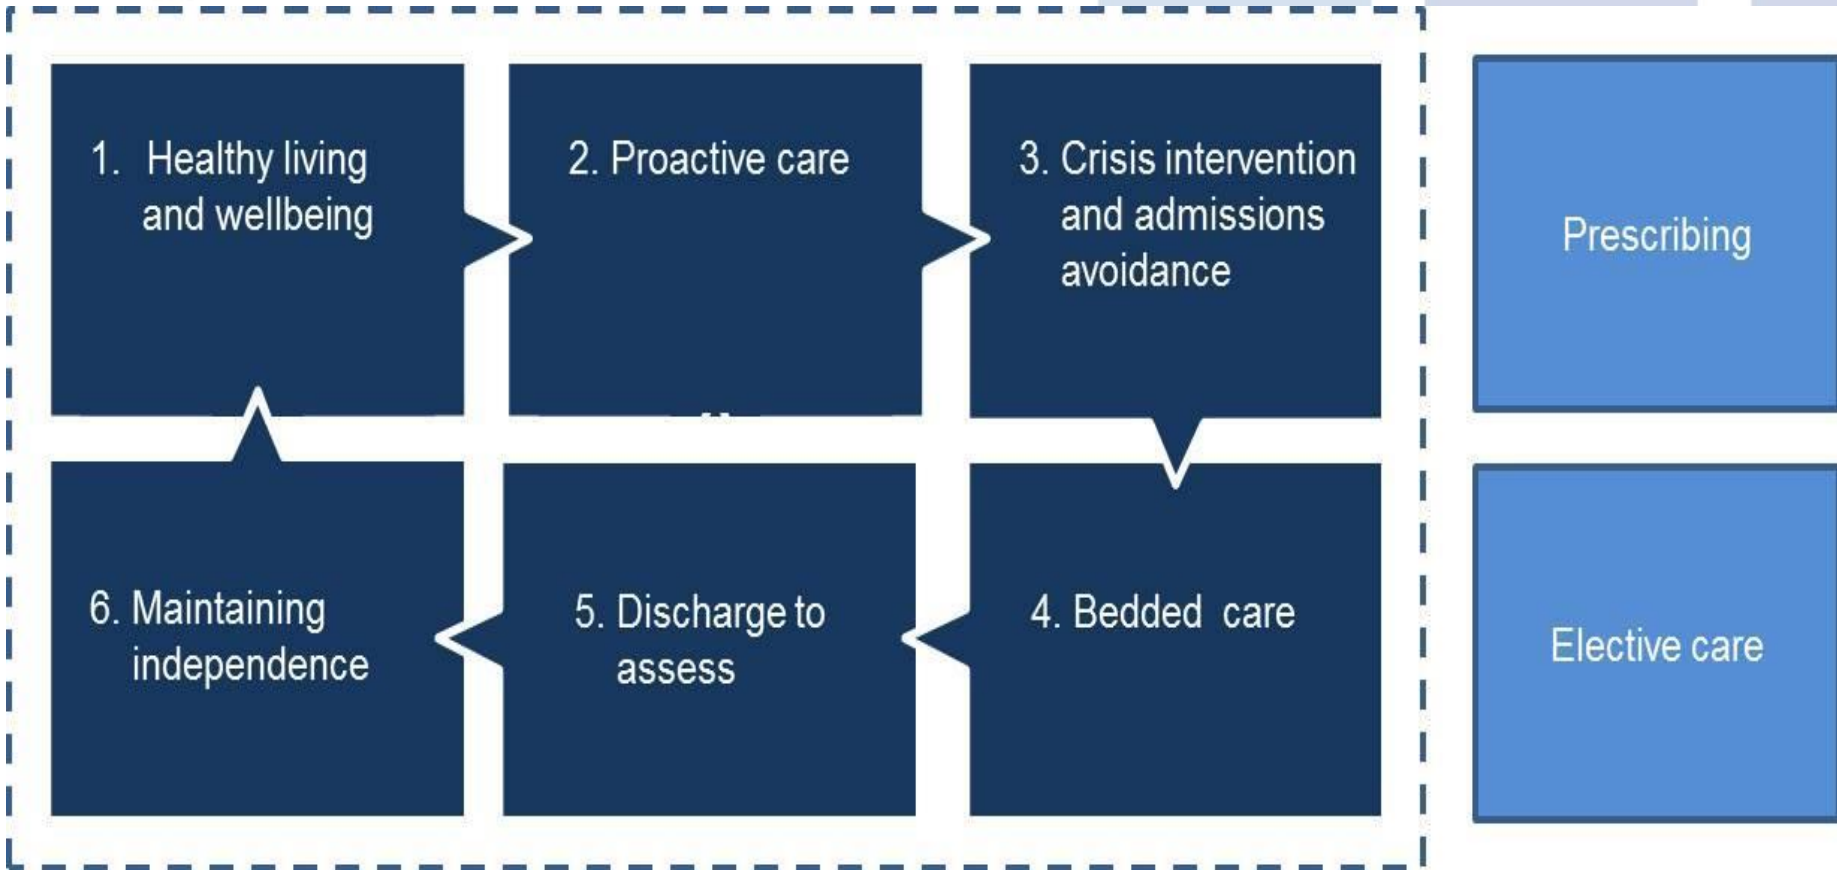

# Fully integrated health and care

- **Week 116** of our 150-week programme to embed a fully integrated health and care system in East Sussex by 2018
- We will use our combined annual budget of £850m to achieve the best outcomes.

# Progress against our whole care pathway '6 + 2 box' model

NHS Eastbourne, Hailsham and Seaford Clinical Commissioning Group

NHS Hastings and Rother Clinical Commissioning Group

East Sussex Healthcare NHS Trust

Sussex Partnership NHS Foundation Trust

# *East Sussex Better Together:* improving the lives of local people

Some snapshots so far:

**Crisis response service** launched  
on 1 July

**Welfare  
Benefits  
Project**

April launch in EHS of  
**Welfare Benefits Project**

Launch of £1.4m scheme  
to **tackle obesity in  
nursery schools**

# **Shaping Health and Care**

**A personal story related by Allison Cannon,  
Chief Nurse, Eastbourne, Hailsham and Seaford  
CCG & Hastings and Rother CCG**

# **Shaping Health and Care**

## **East Sussex health and care**

**Amanda Philpott, Chief Officer**

**Eastbourne, Hailsham and Seaford CCG & Hastings and Rother CCG  
and Joint Senior Responsible Officer, *East Sussex Better Together***

# Spending £850m wisely, not saving £200m badly

**Headline: Year of care costs: £2,189 to £2,800 if we don't change, we need to aim for c.£2,300**

# Improvements that can be made by new models of 'Accountable Care'

## *Personal*

Enhance the quality and experience of patient care (the care and quality gap)

## *Population*

Improve health outcomes of populations (the health and well being gap)

## *System*

Reduce the per capita cost of care (the funding and efficiency gap)

# You said...

**You want to be involved in your treatment and care**

**Strong local communities**

**Reduced barriers between primary and acute care**

**Technology that helps you to feel confident in your care**

**Easy access to urgent care**

**Help to live well**

**Single point of access**

**Local services and support**

**Joined up services**

# Week 116: the next 34 weeks

- Good progress made but integrated care pathways alone will not be enough to meet demand within our combined resources
- It's a global issue – not just in Eastbourne, Hailsham and Seaford

**What would work better?**

# Engagement and co-design of new care model

- **Phase 1: January to March 2016**
  - Initial discussions, develop understanding
- **Phase 2: September 2016 - March 2017**
  - Engagement to inform the outcomes we want to deliver and the design of the model, and how it will be implemented
- **Phase 3: April 2017 – March 2018**
  - Engagement to inform implementation and local accountability during the initial test year of the new model.

# Outcomes that matter to local people

- We want to make sure the outcomes we expect for our model of 'accountable' care are the outcomes that matter to local people
- We want to discuss with local people what outcomes are most important to them.

# Group discussion

- What needs to be different about the way we measure success?
- How will we know if our new model of 'accountable' care is working?
- What is most important to us?
  - Our experience of using services
  - Our clinical outcome
  - How healthy we feel
  - How long we stay in hospital if we need to be there

# **Shaping Health and Care**

**Group Session 1:  
Outcomes for our new model of care**
