ESBT: Integrated care for local people

We need to do more - achieving the 'triple aims'

What's next for our ESBT Alliance in 2018

APRIL 2018

Integrated leadership structure for our health and care commissioning function and our transformation.

OCTOBER 2018

Business case for integrated care system.

Working together for you

- We are currently focussing on the quality care and support element of our outcomes framework

Three key elements to quality care and support

Quality care and support

A reduction in healthcare related infections

An increase in the number of people who report they are satisfied with the care and support they receive

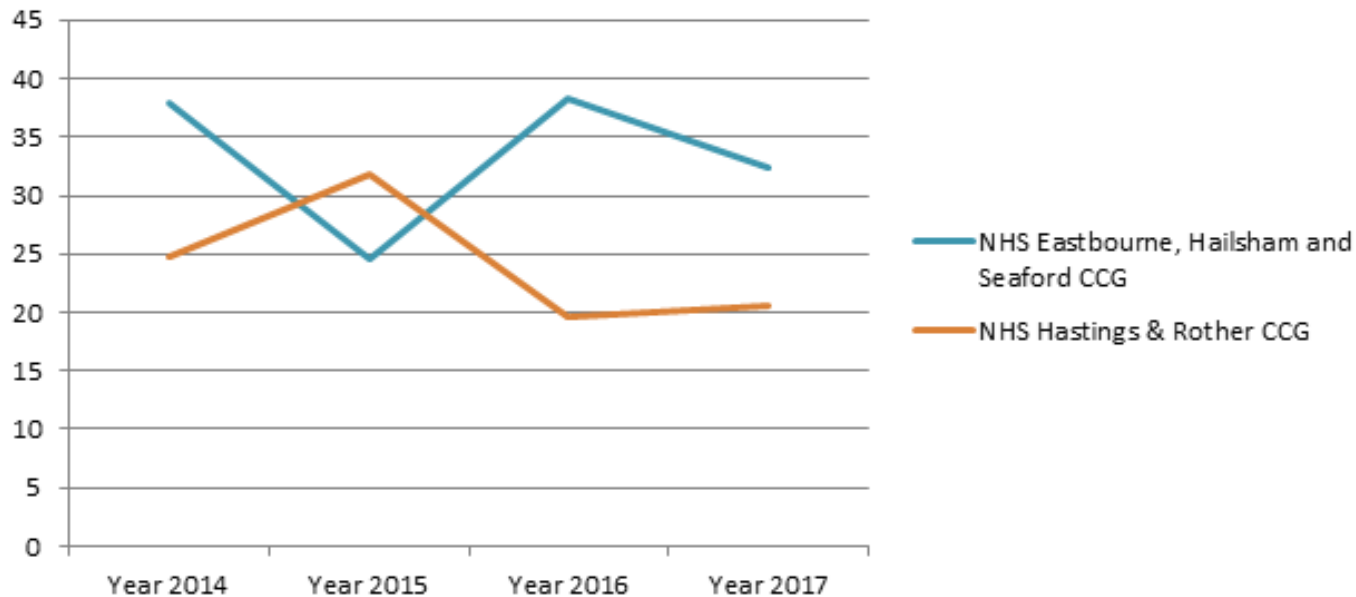

A reduction in the number of falls

Reduction in healthcare-related infections

**Clostridium difficile Infections
per 100,000 population
by Clinical Commissioning groups
April 2014 - March 2018**
